SCORED A SUCCESS

Lawn Party and May Day
Celebration.

Gleaners Entertain a Large Number of People—Castle Lawn
Scene of Gaiety.

The Gleaners gave their lawn party and May-day celebration on the grounds of the home of Mr. W. R. Castle Saturday afternoon, when a delightful time was spent by all who attended. The grounds were very prettily decorated, and the various booths and stands, placed as they were, made a scene good for the eyes to gaze upon. The Hawaiian Band, stationed at the Waikiki corner, furnished music from 3 to 5 p. m. Undoubtedly the inclement weather and another good reason kept many people from attending, but to prove that a large number of people were present, it might be stated that, so far, the sum of \$358.15 has been collected. More money will come in a day or so. The Gleaners should have something over \$300 in the treasury when all bills are paid. For last year's party the expenses were \$90. That was very heavy and it is not believed that this year's debts will amount to much more than \$50.

In mentioning the various booths and tables it might be well to start from the gateway. Just to the right, and near the fence was the candy booth, and opposite it the soap bubbles for the children. Up to the right was another booth, decorated with scarlet carnations and maiden-hair. This was a very pretty and attractive spot.

The refreshment tables, near the house, were neatly set. Next to this was the flower stand, and next the tea booth, made up of three large Japanese fans, moored to the ground, and wound round and round with sprays of the jasmine vine. Under these as a canopy, tea was served.

The fancy table was to have been set out on the lawn, but the inclement weather prevented such proceeding, so the lanai was used instead.

The baby show was, perhaps, the most amusing thing of the afternoon. The tent for this part of the afternoon's proceedings was the farthest back. It was here that over 35 babies were placed in turn on a high chair, and only their faces allowed to show.

The Guessing was pretty spirited. All sorts of funny things took place. Following were the committees in charge of the Gleaners' lawn party:

Fancy Table: Miss Parke presiding, Mrs. E. C. Damon, Mrs. W. F. Fear, Miss Day and Miss Margaret Hopper assisting.

Tea Booth: Miss Widdifield presiding, Miss Campbell and Miss Snow assisting.

Candy Booth: Mrs. C. H. Atherton presiding, Miss Helen Sorenson, Miss Carrie Lemon assisting.

Soda Water: Miss Ethel Smith presiding, Miss Ethel Damon and Miss M. Widdifield assisting.

Flowers: Mrs. C. A. Brown presiding, the Misses Afong assisting.

Soap Bubbles: Mrs. Willard E. Brown presiding and Miss Damon assisting.

Baby Show: Mrs. Richards presiding, Mrs. Atwater and Miss Harriet Forbes assisting.

Ice Cream Booth: Mrs. H. H. Williams presiding, Miss Saxton and others assisting.

Choral Society Concert.

Tomorrow evening will probably occur the last rehearsal of the choral society before the concert, which, it is expected, will occur on Saturday night in the Opera House. This matter will be decided on at tomorrow evening's rehearsal, and every member is asked to be present. Should the concert be given Saturday night, an admission of 25 cents will be charged for any place in the house, with the exception of the gallery, which will be 10 cents.

SUGAR BEET FACTORY IN OMAHA.
Incidentally Syrup, High-Wines and Vinegar Will be Made.

The Vineland Planter quotes some interesting statistics on the estimated profits to the farmers in Nebraska, who are to supply the factory, now building in Omaha, with beets for sugar grinding. It is expected that the farmer will have a profit of \$25 an acre on his plantings.

It is the intention of the projectors not to confine the output of the factory to sugar alone. The Planter says:

A beet sugar factory with a daily capacity of 350 tons is to be erected in or very near the city of Omaha during the coming summer.

The company which is to accomplish the object so long sought by the residents of this part of the State was incorporated a few days ago and is known as the Nebraska Sugar Company. The authorized capital stock of the company is \$350,000, and it is provided that the company may commence business when \$50,000 is subscribed for stock.

In connection with the machinery for the manufacture of sugar from the pulp of the sugar beet, there will be complete machinery for the manufacture of syrup, high-wines and vinegar. Machinery for the manufacture of glucose will also be added, and in this manner the factory will be kept in active operation the year round.

Contracts for beets will be entered into with the farmers of the Douglas county during the coming fall for delivery at the close of the growing season next year. The company will pay \$4 per ton for beets at the factory. Contracts will also be made whereby the company will absorb the freight charges to the extent of 50 cents per ton, provided the beet grower will subscribe for stock to the extent of \$10 for each acre of beets contracted for.

son next year. The company will pay \$4 per ton for beets at the factory. Contracts will also be made whereby the company will absorb the freight charges to the extent of 50 cents per ton, provided the beet grower will subscribe for stock to the extent of \$10 for each acre of beets contracted for.

It is estimated that the product of 5400 acres of land will be required to keep the factory in operation from September 25 to February 1. Estimating the average yield per acre at ten tons, which experience has demonstrated is about the proper figure, this amount of land will supply 54,000 tons of beets. Under ordinary conditions this amount of beets will yield 5400 tons of sugar and 350,000 gallons of syrup to be made into high-wines or vinegar.

The profit to the farmer is estimated at \$25 per acre, figured in this way: Experience shows that the cost of raising beets is about \$20 per acre, with an average yield of ten tons per acre; at \$4 per ton the farmer would receive \$40 for his beets, and the value of the tops as food for stock is estimated at \$5 per acre.

FURNITURE NEWS
April furniture selling exceeds all months in the year with us. Not that the month makes the price; but our orders in December for April delivery saves us a lot, and you get the benefit. We can sell as cheap in July if there are any left-overs but there are not--often.

We are making new records this month--others may be tempted to copy, but where's the use, our prices are the lowest--everybody acknowledges that. Such values are not to be missed.

Enameled Iron Bedsteads

with full brass trimmings, are among the prettiest novelties introduced in the furniture line. We have a half dozen styles, one prettier than the other. Full width and length, made for wear and comfort. Kings sleep on the \$12 style, why not you?

It's only fair to repeat the notice we have had before. We do reupholstering at a trifle above cost of material: this is an odd season and we must keep our factory men busy. It doesn't pay to spend even a little money in making over cheap furniture, but it does pay to reupholster really good frames.

COLD WATER PAINT

Especially Designed for Inside Work on Factories and Public Buildings.

It is a dry powder which can be prepared for use by simply stirring in COLD WATER, and can be applied by anyone, and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone, and will take any tint.

It will last for years and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash. It can be used on any surface and for all classes of work, even for the finest decorating.

OUTSIDE INDURINE.

This Is for Outside Work.

Such as Fences, Outbuildings, Laborers' Quarters. It is a thick paste to be diluted with cold water, stands rain and exposure as well as oil paint, and costs but a fraction as much.

**Cold Water
Kalsomine**

Adapted for Dwellings, Offices and Public Buildings or any other place where KALSOMINE is used. It will not rub, discolor or scale off.

LUCOL

A new Paint Oil. It comes raw and boiled; is superior to linseed, and covers with one-third less lead and pigment to the gallon.
